

# Navigate Life's Challenges with Commute Guard

When cars break down, lives gets turned upside down, too. Everything from getting to work to making alternative caregiving arrangements to paying for unexpected expenses is a problem to solve, quickly. That's where Commute Guard comes in.

## Start to Resolve the Issue Immediately

When a breakdown happens, FIMC will rapidly tow the vehicle to the nearest repair facility or location of the employee's choice, at no cost to them.

## Get Employee Back to Work – and Life – Even if Repair Will Take Time

Commute Guard provides flexible solutions to seamlessly get employees back to work, and life, by providing a rental car at no cost (up to \$250) for one week OR by reimbursing rideshare expenses to/from work for a week (up to \$250) for those who prefer that over a rental.

## Make Sure the Employee is Covered at Home, Too

Unexpected breakdowns also disrupt regular caregiving arrangements and routines. In fact, 87% of employees miss work when their regular care is not available. Commute Guard comes with a Premium Membership to Care.com, giving year-round access to screened caregivers for children, elderly parents, and even pets.

## Help Cover Costs of Unplanned Expenses

Commute Guard reimburses employees' out-of-pocket repair costs — up to \$500!
